City of Salida Enhances Financial Transparency

In an effort to increase transparency and understanding of complex financial information, the City Finance Department created instructions and links to various interactive reports that present financial data in graphical and table formats utilizing the OpenGov software platform (an industry standard for governmental financial transparency).

The “Open Salida” web page can be found by visiting www.CityofSalida.com and navigating to “Your Government / Transparency / Open Salida”. Clicking any of the links beneath the “Featured Questions” header will bring you to an interactive graph within OpenGov which shows further details.

For any questions, please email aimee.tihonovich@cityofsalida.com
