## 2022 City of Salida Street and Utility Capital Project Updates

**Salida, Colorado** — The Salida Public Works Department has multiple capital projects underway. This includes numerous work locations for street reconstruction, utility related improvements, and improvements to sidewalk, curb and gutter, and crosswalks.

Sanitary sewer replacement work is occurring at multiple locations. Current work activities are anticipated to cause detours for sections of New Street and Holman Avenue while work is underway. Work at these locations is expected to take several weeks.

The improvements along 12<sup>th</sup> Street are scheduled to be completed in August. Work along 10<sup>th</sup> Street is anticipated to occur once 12<sup>th</sup> Street has been completed. This work will provide improved pedestrian mobility to the schools, repaving of asphalt, and safety improvements to the intersections. Work along 10<sup>th</sup> Streets is expected to take several months.

Each of these projects are expected to have periodic closures and detours established throughout the course of construction with limited access to local traffic. We look forward to improving our City streetscapes and utility resiliency with the completion of these projects. We appreciate your patience while work is underway.

For any questions, please contact the Public Works Department at 719-539-6275.
